

Nice to welcome you!

The Theresienhof is a **family operated hotel**, managed by the third generation. The hotel has been run with great care and professionalism for over 40 years.

Spacious maintenance works in the last years lead to alteration, including environmental-oriented features. Among many others, photovoltaic and solar panels were installed to produce energy and heat our water. We want to raise **environmental awareness**.

Only a few of many features that make us so special is our apiculture and our **information trail concerning bees** and their living environment. Moreover, you can enjoy our **homemade honey** along with other **organic and regional products** at our richly laid breakfast buffet from 8 am until 10 am every day. Furthermore, guests can pleasure in our **own water spring** that provides pure and energetic water from the "Tabor" hill.

To feel at home, you should know a few more things about our daily routine:

- Let us know if you'd like to have special bread orders for **breakfast** the previous evening until 5:00 pm.
- Feel free to collect tasty fresh herbs from our **herb garden**.
- Next to the piano you'll find a mini-shop with regional and self-made products and **souvenirs**, which can be acquired in the office.
